Hello Project Coordination Team,

The photos from the pre-design field investigation presented at the December 2019 Stakeholder Meeting are loaded on SmugMug (the online photograph sharing site). The link and password to access the gallery are below.

Please do not share this link and password with the general public. If you want the public to see some of these photos, then we can post a subset on the GL Mud website.

You may share this with members of the public outreach subgroup and to others on the larger stakeholder committee as needed. The intent of this database is to be used as a resource when putting together outreach materials.
